duplicated services
given to individuals
and families in crisis

A YEAR OF GROWTH

Our Story So Far

For 70 years, St. Vincent's House (SVH) has been the backbone of providing essential services to a large population of families and individuals in crisis in our community. Currently, SVH is uniquely positioned to offer an Integrated Care Model (ICM) that provides holistic services under one roof to uninsured, underserved, young families, many of whom have not sought services before, truly the most at-risk of the population.

Our Mission

St. Vincent's House provides services and resources to empower people to become healthy, self-sustaining, contributing members of our community.

**A Beacon of
HOPE and
Healing for All
of God's
People.**

Integrated Care Model (ICM) & Outreach Program

The ICM & Outreach Program was established at Central Church, the SVH Hope Clinic, and Sandpiper Cove. The complexity of the population we serve at St. Vincent's House continues to grow. In order to decrease barriers of access to services and in response to the increased complexity of needs, we have developed the ICM & Outreach Program. Our goal is to break the multigenerational poverty cycle and build trust by meeting clients where they are as we continue to raise the bar in finding ways to be as impactful as possible in serving the residents of Galveston County.

Funds Raised & Operating Expenses

Funds raised, including in-kind services. **We are 100% philanthropic.**

“ You cannot be well if you are hungry or scared of being homeless. You cannot be well if your anxiety or depression are so high that you are unable to function. You cannot be well if your blood sugar is too high that you become sick. This is the premise of what we do here at St. Vincent's House - we offer holistic, wraparound services to individuals in need. We see ourselves as a beacon of HOPE and healing for all of God's people. ”

Paula Tobon, SVH Exective Director

Message from Executive Director, Paula Tobon

Anyone can experience a situation in which they might need the help of others. Unexpected life events can be devastating. Setbacks such as an accident, job or benefit loss in this turbulent economy can cause food insecurity, a lack of stable, safe housing, and homelessness for those already struggling to make ends meet.

Because of your support, you are helping to keep HOPE alive in Galveston County and resilient individuals and families get back on their feet.

Thank you so much for your continued generosity for St. Vincent's House. Our doors are always open and we would love for you to experience, first hand, the ministry at St. Vincent's House, where we are a beacon of HOPE and Healing for all God's People.

"Anyone can experience a situation in which they might need the help of others."

As the Executive Director of St. Vincent's House, Paula continues to raise the bar in finding ways for the organization to be as impactful as possible, developing strong community and inter-agency collaborations as well as building new avenues of support to better serve SVH clients.

We couldn't have done it without your generous support.
